Minecraft HUG Workshop -Disaster Prevention x Games-

<What is a Micro HUG? >

Ever wondered what actually comes next in your evacuation center even if you've participated in any emergency drill before? To experience how to manage it virtually, Disaster Prevention team of Kurita Seminar, Faculty of Economics of Kwansei Gakuin University invented "Micra HUG", an online disaster prevention game, in which we integrated "Minecraft", a user-friendly 3D video game, with "HUG", an evacuation center management board game!

Participants

Anyone is welcome (it's just a game, so anyone can have fun!):
International students, Japanese students, working adults etc.

Venue

In Minecraft (an Online video game by Microsoft)

Apply

Come to our online venue Minecraft directly.

Also have ready access to Minecraft & Zoom in advance.

(If you are a Minecraft newcomer, please let us know by email by March 8, and we will contact you for more details).
